SUF-135EG-C-C

2-Door Freezer Cabinet, HC

NUMER ARTYKUŁU: 878010901

The Hoshizaki SUF-135EG-C-C is a 2-Door Freezer Cabinet, HC with a net internal volume of 797 Ltr.
As a product that is designed and built to last, this refrigerated cabinet combines an innovative design concept, premium materials and clever extras. The technology behind the strong performance of the Snowflake GII+ series is the tropicalised cooling system, enduring up to +40°C. With outside dimensions W x D x H of mm, the SUF-135EG-C-C makes a perfect fit for diverse food service environments, especially for locations with low ceilings. The SUF-135EG-C-C is also easy to maneuver through door openings, which simplifies the process of installation. The Hoshizaki Snowflake GII+ series is brought to you by Japanese and Danish engineering excellence, dedicated to simplifying the day-to-day work routines of kitchen staffs all around the world.

SustainableThe refrigerant used in all Snowflake GII+ models is R290. This agent is a natural gas which enhances the performance of the refrigerated counter and has, compared to other refrigerants, a minimal ozone depletion potential. MaterialBoth interior and exterior of the refrigerated cabinet are built of stainless steel AISI 304/ nickel-free (non-allergic) stainless steel AISI 430, which is among the best choices for hygienic and food safe cooking environments.Smart Use of SpaceMaking best possible use of limited space conditions is a common challenge in kitchen design. The evaporator is positioned on top of the cabinet, so valuable space inside the cabinet can be used for storage. The condensation tray is not positioned on the back of the cabinet, but on top of it. This clever design allows you to move the cabinet closer to the back wall which gives you additional 5 cm of your valuable operational area. Energy EfficiencyThe double insulated and extra wide door gaskets help to keep the cold air inside the cabinet, which is an important factor for device efficiency. The Ecodesign AEC Energy consumption is {{ energy_consumption_ecodesign_cabinets_counters }}. Convenience and ErgonomicsThe {{ modelname }} has self-closing doors, which close automatically when open in an angle of less than 90 degrees. Additionally, they offer maximum flexibility as they are fully reversible. an anti-tilt mechanism with moulded liners helps with safer container and rooster handling. The GN shelf size of the {{ modelname }} is {{ shelf_size_cabinets_counters }}. With sound levels of {{ sound_level_cabinets_counters }} dB(A) the {{ modelname }} adds to a

storing foods protectively in the best possible way.
