

SUF-65EG-C-C

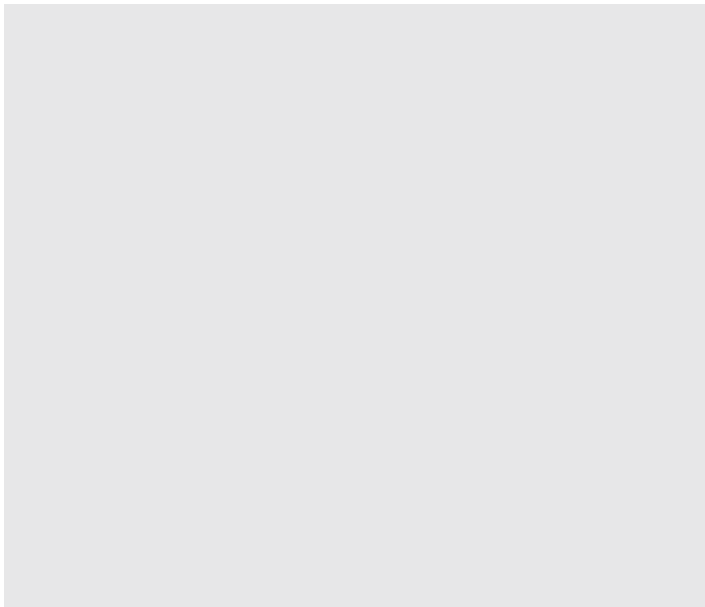

Tiefkühlschrank, eintürig

ARTIKELNUMMER: 877010901

Snowflake GII Kühltechnik ist für die Leistung in anspruchsvollen Umgebungen entwickelt und gibt Ihnen Sicherheit. Mit intelligentem Innen- und Außendesign bieten Ihnen unsere Kühlschränke und Kühltische die richtige Kühlung für Ihre Produkte.

SustainableThe refrigerant used in all Snowflake GII+ models is R290. This agent is a natural gas which enhances the performance of the refrigerated counter and has, compared to other refrigerants, a minimal ozone depletion potential. **Material**Both interior and exterior of the refrigerated cabinet are built of nickel-free (non-allergic) stainless steel, which is among the best choices for hygienic and food safe cooking environments. **Smart Use of Space**Making best possible use of limited space conditions is a common challenge in kitchen design. The evaporator is positioned on top of the cabinet, so valuable space inside the cabinet can be used for storage. The condensation tray is not positioned on the back of the cabinet, but on top of it. This clever design allows you to move the cabinet closer to the back wall which gives you additional 5 cm of your valuable operational area. **Energy Efficiency**The double insulated and extra wide door gaskets help to keep the cold air inside the cabinet, which is an important factor for device efficiency. The **Ecodesign AEC** Energy consumption is 2171. **Convenience and Ergonomics**The SUF-65EG-C-C has self-closing doors, which close automatically when open in an angle of less than 90 degrees. Additionally, they offer maximum flexibility as they are fully reversible. an anti-tilt mechanism with moulded liners helps with safer container and rooster handling. The GN shelf size of the SUF-65EG-C-C is GN 2/1 deep. With sound levels of 56 dB(A) the SUF-65EG-C-C adds to a comfortable work environment for your staff. **Easy Cleaning & Maintenance**The Snowflake GII+ refrigeration system uses a mono-block construction that is removable for easier maintenance and repair. The removable gaskets make sure that can clean the device thoroughly. This and other thoughtful extras, such as the cleaning-free condenser, are designed to reduce kitchen cleaning times whilst storing foods protectively in the best possible way.
