## SUR-135EG-C-C

### 2-Door Refrigerated Cabinet, HC

ITEM NUMBER: 878000901

The Hoshizaki SUR-135EG-C-C is a 2-Door Refrigerated Cabinet, HC with a net internal volume of 797 Ltr.

As a product that is designed and built to last, this refrigerated cabinet combines an innovative design concept, premium materials, and clever extras.

The technology behind the strong performance of the Snowflake GII+ series is the tropicalised cooling system, enduring up to +40°C.

With outside dimensions W x D x H of mm, the SUR-135EG-C-C makes a perfect fit for diverse foodservice environments, especially for locations with low ceilings. The SUR-135EG-C-C is also easy to maneuver through door openings, which simplifies the process of installation.

The Hoshizaki Snowflake GII+ series is brought to you by Japanese and Danish engineering excellence, dedicated to simplifying the day-to-day work routines of kitchen staff all around the world.

**Sustainable**The refrigerant used in all Snowflake GII+ models is R290. This agent is a natural gas that enhances the performance of the refrigerated counter and has, compared to other refrigerants, a minimal ozone depletion potential. **Material**Both interior and exterior of the refrigerated cabinet are built of stainless steel AISI 304/ nickel-free (non-allergic) stainless steel AISI 430, which is among the best choices for hygienic and food-safe cooking environments. **Smart Use of Space**Making the best possible use of limited space conditions is a common challenge in kitchen design. The evaporator is positioned on top of the cabinet, so valuable space inside the cabinet can be used for storage. The condensation tray is not positioned on the back of the cabinet, but on top of it. This clever design allows you to move the cabinet closer to the back wall which gives you an additional 5 cm of your valuable operational area. **Energy Efficiency**The double insulated and extra wide door gaskets help to keep the cold air inside the cabinet, which is an important factor for device efficiency. **The Ecodesign AEC** Energy consumption is 926. **Convenience and Ergonomics**The SUR-135EG-C-C has self-closing doors, which close automatically when open at an angle of fewer than 90 degrees. Additionally, they offer maximum flexibility as they are fully reversible. an anti-tilt mechanism with moulded liners helps with safer container and rooster handling. The GN shelf size of the SUR-135EG-C-C is GN 2/1 deep. With sound levels of 53 dB(A), the SUR-135EG-C-C adds to a comfortable work environment for kitchen staff. **Easy Cleaning & Maintenance**The Snowflake GII+ series is designed for easy cleaning and maintenance. The cabinet is built with a smooth, non-porous surface that is easy to clean and maintain. The cabinet is built with a smooth, non-porous surface that is easy to clean and maintain.

**EXTERIOR**  
**Stainless Steel**

**INTERIOR**  
**Stainless**

Refrigerant type: R290 / Refrigerant: 0.085 kg / CO2 equivalent: 0.255 kg

Energy consumption	Energy efficiency class	Energy Efficiency Index (EEI)
926 kWh	C	38.16 EEI
