The DCM-120KE is an ice/water dispenser that can produce the following combinations: cubelet ice, cubelet ice and water or dispense only water. The ice/water dispensing system can be used for multiple environments including hospitality, catering, leisure and healthcare. They are compact with reduced space requirements. The portion control can be easily set, making it easy to regulate the consumption of ice among end-users, therefore ideal for a self-serving environment.

- Hoshizaki ice dispensers are more compact with reduced space requirements and in line with modern interiors.
- Ice dispensing system includes lever and LED operation buttons, easy and simple to use, therefore ideal for self-serving environment.
- New lever design prevents touching the lip of a glass, minimising risk of bacterial transfer.

Refrigerant type: R134a / CO2 equivalent: 300 kg
